

Easy-to-Use MDU Portal

TenantFi is our easy-to-use portal that allows users to add and remove devices, enable UPnP, forward ports, and more.

Give tenants the at-home experience they crave with TenantFi.

About Us

We were founded in 1997 in Nova Scotia, Canada with the vision of providing simple access to the Internet on public networks.

Today, we provide world-class managed Wi-Fi technology solutions for multi-dwelling units, campuses, student housing, and senior living facilities. With our patented solutions and experienced staff, we have the knowledge and experience to assist you in creating outstanding Wi-Fi user experiences.

Helping you optimize your network is what we strive for every day.

Your problems, our solutions.

Multi-Dwelling
Units (MDUs)**

SolutionInc

Wi-Fi as Part of Your Product Portfolio.

We offer integrators and service providers with a solution in their search for a way to enhance their offering with a patented and proven Wi-Fi solution.

Tenants expect an excellent, consistent Wi-Fi experience and you need a rock-solid system to integrate your management systems, POS, IoT, or tenant systems. With 24/7/365 support and nearly three decades of experience, we have the solution for you.

MDU Solutions

With our experience in unique and global deployments, our Wi-Fi solution for MDU's offers a competitive option to compete with other brands.

Branded Tenant Portal (TenantFi)

Upstream Multihoming

Universal Plug n' Play (uPNP)

Management Dashboards

Dynamic Pre Shared Keys

Self-Serve Tenant Portal

Our self-serve portal provides a secure Wi-Fi connection to tenants and allows them to onboard and manage their own devices, eliminating network support complaints and empowering users to manage their own secure private network.

This service is ideal for settings where many individuals share a common network infrastructure and can also be integrated with Dynamic Pre-Shared Keys.

SolutionIP

At the heart of nearly everything we do is our patented gateway. Our hardware-agnostic technology has evolved and grown over nearly three decades, and its flexibility allows it to power Wi-Fi networks for all industries, big and small.

Our gateway is the link between your Wi-Fi network and the internet. Our captive portal functionality is easy to customize to your brand and creates a world-class user sign-on experience.

With APIs, PMS integration, and SMART Dashboards, both SolutionIP FLEX® and SolutionIP X have the flexibility and capacity to handle any network.

Why Choose Us?

- 1** We have an extensive partner ecosystem and understand how to work with partners to get results.
- 2** Our R&D and QA teams are in-house, enabling us to customize your solution.
- 3** We have been offering hospitality Wi-Fi services for more than 20 years.
- 4** We offer a broad range of services to ensure a quality network solution.
- 5** Our staff is professionally trained, giving you confidence in our services.
