SolutionInc

SolutionInc is a global network services and technology company specializing in the design, deployment, and management of secure, large-scale wireless and wired network environments. Founded over 28 years ago, SolutionInc has established itself as a trusted partner to organizations that depend on highly reliable, high-performance connectivity across complex physical and operational environments.

With operations and deployments spanning more than 55 countries, SolutionInc supports a diverse range of clients across hospitality, multi-dwelling units, education, healthcare, convention centres, entertainment venues, and large public spaces. Our experience operating at scale, often in mission-critical, high-density environments, has shaped a disciplined, outcomes-driven approach to network delivery that prioritizes reliability, security, and long-term operational sustainability.

SolutionInc's core strength lies in bridging the gap between infrastructure and experience: delivering networks that are technically robust while remaining easy to manage, adaptable to change, and aligned with the business objectives of the organizations we serve.

About Us

Your problems. Our solutions.

Our Products

At the heart of nearly everything we do is our patented gateway, SolutionIP FLEX®. Our bread and butter, it's the business of Wi-Fi. Our technology and evolved and grown over nearly three decades, and its flexibility allows it to power Wi-Fi networks for all industries, big and small.

Our SolutionIP FLEX® internet gateway is the link between your Wi-Fi network and the internet. This on-premise captive portal solution creates a scalable, world-class user sign-on experience that is easy to install and manage. Patented and proven, it provides multiple options to customize your Wi-Fi offering to your industry and brand.

SolutionIP FLEX® Lite is a streamlined version of our bread and butter SolutionIP FLEX®. Targeting select service properties with lower room counts, FLEX Lite paired with our NS2025 server is the perfect fit. Only the features you need at a great price.

SolutionIP FLEX® Cloud offers a fully-managed wireless network structure that minimizes on-site management. It takes the complexity out of set-up and management of your Wi-Fi network while providing a consistent and branded experience to your clientele. Wi-Fi may not be what you sell, but it is important to your business.

SolutionIP Zen® is our cloud-controlled portal that removes the hassle of managing a fleet of locations. Combined with our beautiful analytics dashboards, SolutionIP Zen is the easy-to-use, modern system to help you manage your SolutionInc product portfolio.

SolutionInc

Our Services
